

Stanford-South Africa Biomedical Informatics Training Program (SSABMI)

*Biomedical Informatics Training Program, Stanford University, USA
South African National Bioinformatics Institute, University of the Western Cape
University of Cape Town
National Institute for Communicable Diseases, SA*

Short Courses presented by Stanford Faculty

Statistics for Bioinformatics-Michael Walker : 5-8 September 2005
HIV-TB for Informatics-David Katzenstein : 12-15 September 2005
HIV Drug Resistance DB-Robert Shafer: 16, 19-23, 26 September 2005
Ontology Engineering using Protégé-Samson Tu, Ray Ferguson : 3-6 October 2005
Introduction to Bioinformatics-Russ Altman : 14-15 October 2005
Pharmacogenomics-Russ Altman: 17-20 October 2005

Interested post-graduate students, faculty and staff in South Africa should apply by July 29th, 2005.

MSc Traineeship in Biomedical Informatics – No application deadline

Interested post-graduate students should submit applications immediately, as funding is limited.

Visiting Scholarships to Stanford – No application deadline

Stipends and travel funds to support 3-12 month research collaborations are available for a selected number of South African post-graduate students, post-doctoral candidates or junior faculty. Initial applications need to be submitted immediately.

Details of application can be found at: <http://stanford.sanbi.ac.za>
Or contact Ms Judith Jansen, program coordinator at Tel: +27 (0)21 - 959 3645 or email: judith@sanbi.ac.za
