

CAPRISA

CENTRE FOR THE AIDS PROGRAMME OF RESEARCH IN SOUTH AFRICA

Associate Director

CAPRISA is a prestigious international research organisation based in South Africa that conducts research on prevention and treatment of HIV, Tuberculosis and Covid-19 that has impacted global policy

CAPRISA is preparing for its leadership succession and is seeking suitable candidates for the role of Associate Director

THE ROLE:

- To serve in the leadership of CAPRISA, alongside the Director and Deputy Director, to manage the organization and ensure that CAPRISA fulfils its mission of conducting globally relevant and locally responsive research
- To undertake impactful, cutting-edge research, provide evidence-based policy advice to policy-makers and to facilitate training and mentorship of the next generation of researchers

EXPERIENCE AND QUALIFICATIONS:

- A Medical Doctor, preferably with a specialist qualification or Masters in public health
- A significant track record of publications
- Established medical researcher with between 5-10 years' research experience in a research institution or university, in HIV/AIDS and/or Tuberculosis
- Active in securing research grants
- Research interests and experience should include epidemiology, clinical research or laboratory science

KEY CAPABILITIES:

- Identification of strategically important research opportunities
- Independent initiative and capabilities for planning, organising and co-ordinating project programmes in a complex environment with diverse and numerous demands
- Ability to analyse and clearly communicate scientific information
- Established collaborations and partnerships with several other researchers, locally in South Africa and/or globally
- Ability to lead in a research setting
- Global worldview and an understanding of the opportunities for impact in Africa
