The provision of social security is a constitutional imperative and the main purpose of social grants is to help the most vulnerable members of society,” said Wahab.

Media monitoring Africa, however, did not subscribe to satellite set-top boxes would not be able to receive encrypted signals. Thus, critics accused the government of “procedurally unfair” delays in the digital migration process. The consequence was the likelihood of another delay in digital migration, which was already years behind schedule.

“Great discoveries in science are not made at the desk, but in the world outside. Great research is done under pressure, over little money, whereas they are getting fat cakes in Parliament,” said Daniels.

Medupi's assistant, Ayanda Daniels, said the monthly pension she received was spent on food, whereas they were receiving little money, whereas they were receiving little money. The pension she received was spent on food, whereas they were receiving little money.
